GAME DEV TEAM PROJECTS

Building Functional Groups - Lead Researcher for Story and Game Design sections (01/2016 - 02/2016)

- Goal for our team was to create a brand-new video game pitch for a fictional studio
- Tasked with outlining different aspects of the game (art, genre, story, etc.)

PROFESSIONAL SUMMARY

- Game Designer with 2 years of experience
- Specialist in Story and Level Design
- Familiar with C#, HTML, CSS, and JavaScript languages, experience with the Unity engine
- Resilient and adaptable, capable of being a quality team player, communicator known for clarity
- Analytical team member, completes tasks before prescribed deadline
- Held both roles as Game Test Administrator and Tester for an analog board game I designed

SKILLS

EMPLOYMENT HISTORY

Dasher DoorDash

03/2021 - Present

Highlands Ranch, CO

Key Holder Earthbound Trading Co

11/2015 - 03/2020

Lawrenceville, GA

GAME DEV TEAM PROJECTS

Tactics for Motivation and Influence - Leader/Manager, Researcher (11/2015 - 12/2015)

- Team was selected to create a Prezi presentation outlining a fictional studio
- Completed a comprehensive overall flow chart (along with individual charts for each department) as well as job descriptions for each position

WEB DEV TEAM PROJECTS

Front End Developer

Stock Scanner

Tasks/Achievements

- Summary: A dynamic web app that searches for and displays stock information utilizing two separate APIs. The user can search for and save various stocks to a "favorites list", which will persist on refresh.
- Tools: HTML5, CSS3, MDBootstrap
- URL: <https://buneroskoviche.github.io/StockScanner/>
- GitHub: URL: <https://github.com/Dkallen117/StockScanner>

Back End Developer

RPG Character Sheet

07/2021 - 08/2021

Tasks/Achievements

- Summary: An RPG character creation web app where users can create different characters, assign different attributes, as well as equip their character with various items. Users can then compare the different characters they've created with one another.
- Tools: Sequelize, MySQL, Express
- URL: <https://jefarth-rpg-database.herokuapp.com/>
- GitHub URL: <https://github.com/Dkallen117/rpg-character-sheet>
